

Fairways had a cut today ahead of the start of the application of iron.

16th path just needing turf to finish off now.

16th is all turfed now

More feed going out on the course today.

The iron that was applied to the fairways and rough has started to work. Greens got a roll and the 4th tee path has started to be edged.

After frost had gone, we were able to top dress the greens and drag mat it in ready for the rain. Cutter collector out and about cutting selective areas to encourage heather regeneration. Gorse on the 9th carry removed while it was frosty

Cutter collector out and about today thinning out that nasty rough. Painting posts Selective herbicide being applied to the fairways

Volunteers at work, thank you for giving up your valuable time removing stones from the bunkers.

Sanding & sealing the patio chairs and tables as well as painting the outside of the clubhouse.

Clearing up pine needles around the course.

First load of sand going into the bunkers today. Not long now!!!!!!
