

9th GREEN

ROOT BREAK!!

WHY?

THE ABOVE PICTURE SHOWS THE SCALE OF THE PROBLEM

**THE ROOTS GROWING UNDER THE 9TH GREEN WAS HAVING A HUGE IMPACT ON THE
CONDITION OF THE GREEN.**

**THE TREES WERE TAKING AWAY VITAL NUTRIENTS AND WATER FROM THE GREEN.
IN BREAKING THE ROOTS THE NUTRIENTS AND WATER WILL NOW BE AVAILABLE TO THE
GRASS.**

**A WOODEN BOARD WRAPPED IN POLYTHENE WAS PUT INTO THE TRENCH TO REDUCE THE
AMOUNT OF ROOTS GROWING BACK UNDER THE GREEN AS SEEN IN THE NEXT PICTURE**

**AT THE SAME TIME WE RESHAPED THE ENTIRE AREA INCREASING THE PLAYING AREA BEHIND
THE GREEN.**
